Antelope Valley Commercial Photovoltaic Solar Facilities

Antelope Valley Commercial Photovoltaic Solar Facilities

- Approximately 60 Commercial Photovoltaic Solar Facilities throughout the District.
 - Sites range from 20 acres to 2,800 acres.
 - Post construction all sites must submit Active Dust Control Plan & update annually.
 - Active DCP provides the District current contact information to the site owner/operator.
-

BYD (Build Your Dreams)

- **BYD Lancaster Coach & Bus facility has tripled in size to 450,000 sq. ft.**
- **Current employment over 800 people**
- **Capacity to deliver ~1,500 buses/year**
 - Delivery trucks
 - Yard trucks
 - Forklifts

AB 617 Community Air Protection Program

- ❑ **AVAQMD and ARTC submitted an AB617 Community Monitoring Project.**
 - High incidence of asthma, COPD and other respiratory issues
 - Disadvantaged areas exposed to fugitive dust and other PM sources
 - Potential to coordinate w/ Valley Fever studies
- ❑ **Install PurpleAir Sensors at select locations throughout the District.**
- ❑ **Primary locations: schools and municipal sites w/ security, Wi-Fi and accessible power.**

Cannabis

- ❑ Issue AVAQMD permits on all cannabis processing operations involving VOC.

- ❑ **Require Odor Control Plan**
 - ❑ Similar to existing Active DCP
 - ❑ Coordinate w/ CUP conditions
 - ❑ Annual renewal
 - ❑ Provides tracking and oversight
