

Rule 302

Asbestos Fee Schedule

Renovations		
	<i>where the ACM is....</i>	<i>The associated fee is.....</i>
A	For each renovation project involving the removal of ACM the fees are assessed as follows (see below for RACM):	at least 160 square feet of material \$357.00
		at least 260 linear feet of pipe \$357.00
		at least 35 cubic feet off of facility components \$357.00
	<i>where the square feet of RACM from non-pipe material to be</i>	<i>The associated fee is.....</i>
B	For each renovation project involving the removal of RACM from non-pipe material the fees are assessed as follows:	more than 160 square feet but less than 1,000 square feet \$777.00
		1,000 square feet or more, but less than 5,000 square feet \$1,082.00
		5,000 square feet or more \$1,082.00 plus \$306.00 for each 5,000 square feet, or fraction thereof, over
	<i>where the linear feet of RACM from pipe to be removed is...</i>	<i>The associated fee is.....</i>
C	For each renovation project involving the removal or stripping of RACM from pipe where the outside diameter of piping insulation (wrapping) is less than 2.35 inches or less the fees are assessed as follows:	More than 260 linear feet but less than 1,600 linear feet \$777.00
		1,600 linear feet or more, but less than 8,000 linear feet \$1,082.00
		8,000 linear feet or more \$1,082.00 plus \$306.00 for each 8,000 linear feet, or fraction thereof, over 8,000 linear feet
	<i>where the square footage of RACM from pipe shall be calculated</i>	<i>The associated fee is.....</i>
D	For each renovation project involving the removal or stripping of RACM from pipe where the outside diameter of piping insulation (wrapping) is less	$A = \frac{3.14159 \times L \times D}{12}$ Where: A = Area in square feet; L = Linear length of piping in feet; D = Outside diameter of pipe insulation (wrap) in inches
		Such projects shall be evaluated in terms of square footage and assessed the fee per section B of this table
	<i>where the cubic feet of RACM from off of facility components is...</i>	<i>The associated fee is.....</i>
E	For each renovation project involving the removal or stripping of RACM off of facility components the fees are assessed as follows:	more than 35 cubic feet but less than 220 cubic feet \$777.00
		More than 220 cubic feet but less than 1,100 cubic feet \$1,082.00
		1,100 cubic feet or more \$1,082.00 plus \$306.00 for each 1,100 cubic, or fraction thereof, over 1,100

Demolitions

		<i>where the square feet of material (or building area) to be</i>	<i>The associated fee is.....</i>
A	For each demolition project involving the demolition of non-pipe material, including, but not limited to projects where no asbestos is present and demolition projects by fire, the fees are assessed as follows (based on area of structure in the case of a complete structure demolition):	less than 1,000 square feet	\$777.00
		1,000 square feet or more but less than 5,000 square feet	\$1,082.00
		5,000 square feet or more of material	\$1,082.00 plus \$306.00 for each 5,000 square feet, or fraction thereof, over 5,000 square feet
		<i>where the linear feet of pipe to be demolished is...</i>	<i>The associated fee is.....</i>
B	For each demolition project involving the demolition of pipe material, including, but not limited to, projects where no asbestos is present and demolition projects by fire, the fees are assessed as follow:	less than 1,600 linear feet	\$777.00
		1,600 linear feet ore more but less than 8,000 linear feet	\$1,082.00
		8,000 linear feet or more of pipe	\$1,082.00 plus \$306.00 for each 8,000 linear feet, or fraction thereof, over 8,000 linear feet
		<i>where the cubic feet off of facility components is...</i>	<i>The associated fee is.....</i>
C	For each demolition project involving the demolition off of facility components, including, but not limited to, projects where no asbestos is present and demolition projects by	less than 220 cubic feet	\$777.00
		220 cubic feet or more but less than 1,100 cubic feet	\$1,082.00
		1,100 cubic feet or more	\$1,082.00 plus \$306.00 for each 1,100 cubic feet, or fraction thereof, over 1,100 cubic feet
Revisions (for Renovations and Demolitions)			
			<i>The associated fee is.....</i>
			If in the course of a Renovation Project pursuant to 40 CFR 61, Subpart M, it is determined that the project involves the removal or stripping of material such that the project requires a greater fee than was initially proposed, the owner or operator shall pay the balance of the fee.
Emergencies (for Renovations and Demolitions)			
			<i>The associated fee is.....</i>
			No additional charge required.
